How to retrieve Saved Web Passwords (in Safari)

<http://osxdaily.com/2014/06/26/find-saved-passwords-ios/>

This obviously works only if you had a password actually saved within Safari and Autofill, this is not going to retrieve a password for a web service that was never saved or remembered through the feature.

1Password with Touch ID integration in iOS8!

In the past, you had to open the 1Password app, copy text, then jump back into Safari and paste. There was also the option to use 1Password's built-in web browser with autofill, but it didn't solve the problem of making it easier to work inside other apps. Now it will be a seamless experience to use 1Password inside Safari and potentially other apps as well.
