# OSX

## IOS 9 - Appolooza!

This month we focus on a great set of Apps for your enjoyment.

## Your Medical ID information!

You must enter your critical medical information into the HEALTH app on your phone. In the event of your incapacitation, medical professionals will be able to treat you properly and avoid administering anything you might be allergic or have a reaction to. I can't emphasize HOW important this could be. **They will be able to do this without knowing the passcode for your device!**

### Health

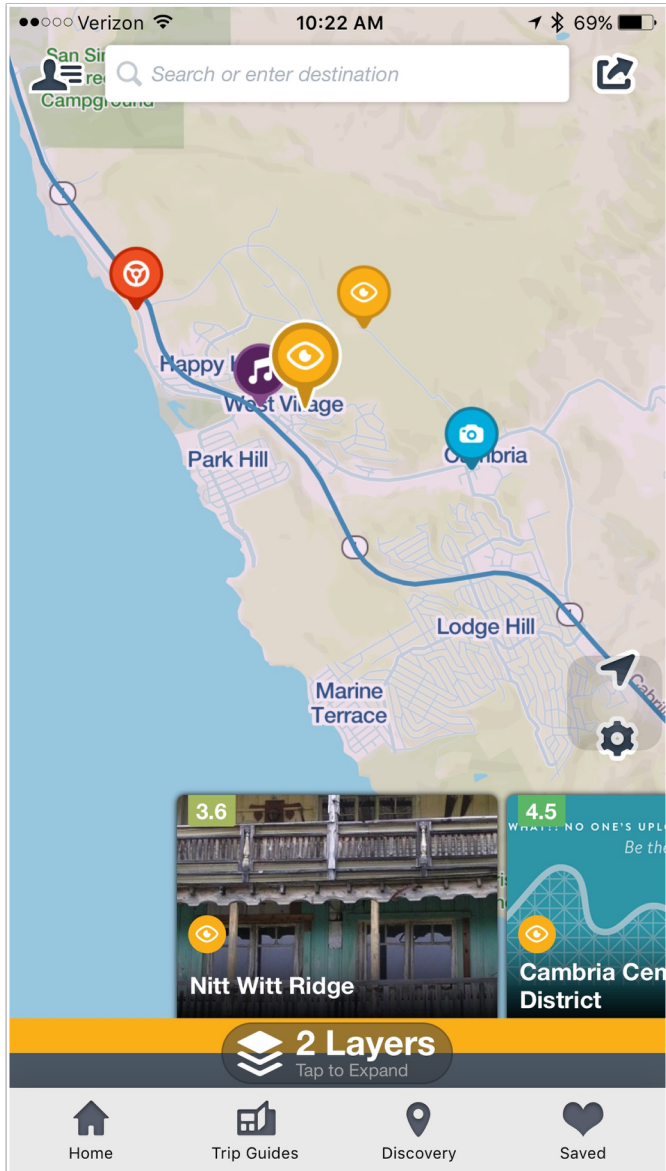

**WebMD** (adjunct app - for scheduling medications)

The screenshot shows the 'Medical ID' screen in the Apple Health app. At the top, the status bar shows 'Verizon', '10:19 AM', and '70%' battery. The app header is red with a white asterisk icon and the text 'Medical ID', and an 'Edit' button. Below the header, there is a black circular profile picture placeholder, the name 'David Whitby', and the date of birth 'January 3, 1948 (68)'. The screen is divided into sections: 'Medical Conditions' with 'Minor Arthritis', 'Medications' with 'Diclofenac', 'spouse' with 'Kathe Zamorano' and phone number '(626) 807-4363' (accompanied by a call icon), 'Weight' with '200 lb', and 'Height' with '6 ft, 4 in'. At the bottom is a navigation bar with icons for 'Dashboard', 'Health Data', 'Sources', and 'Medical ID' (which is highlighted in red).

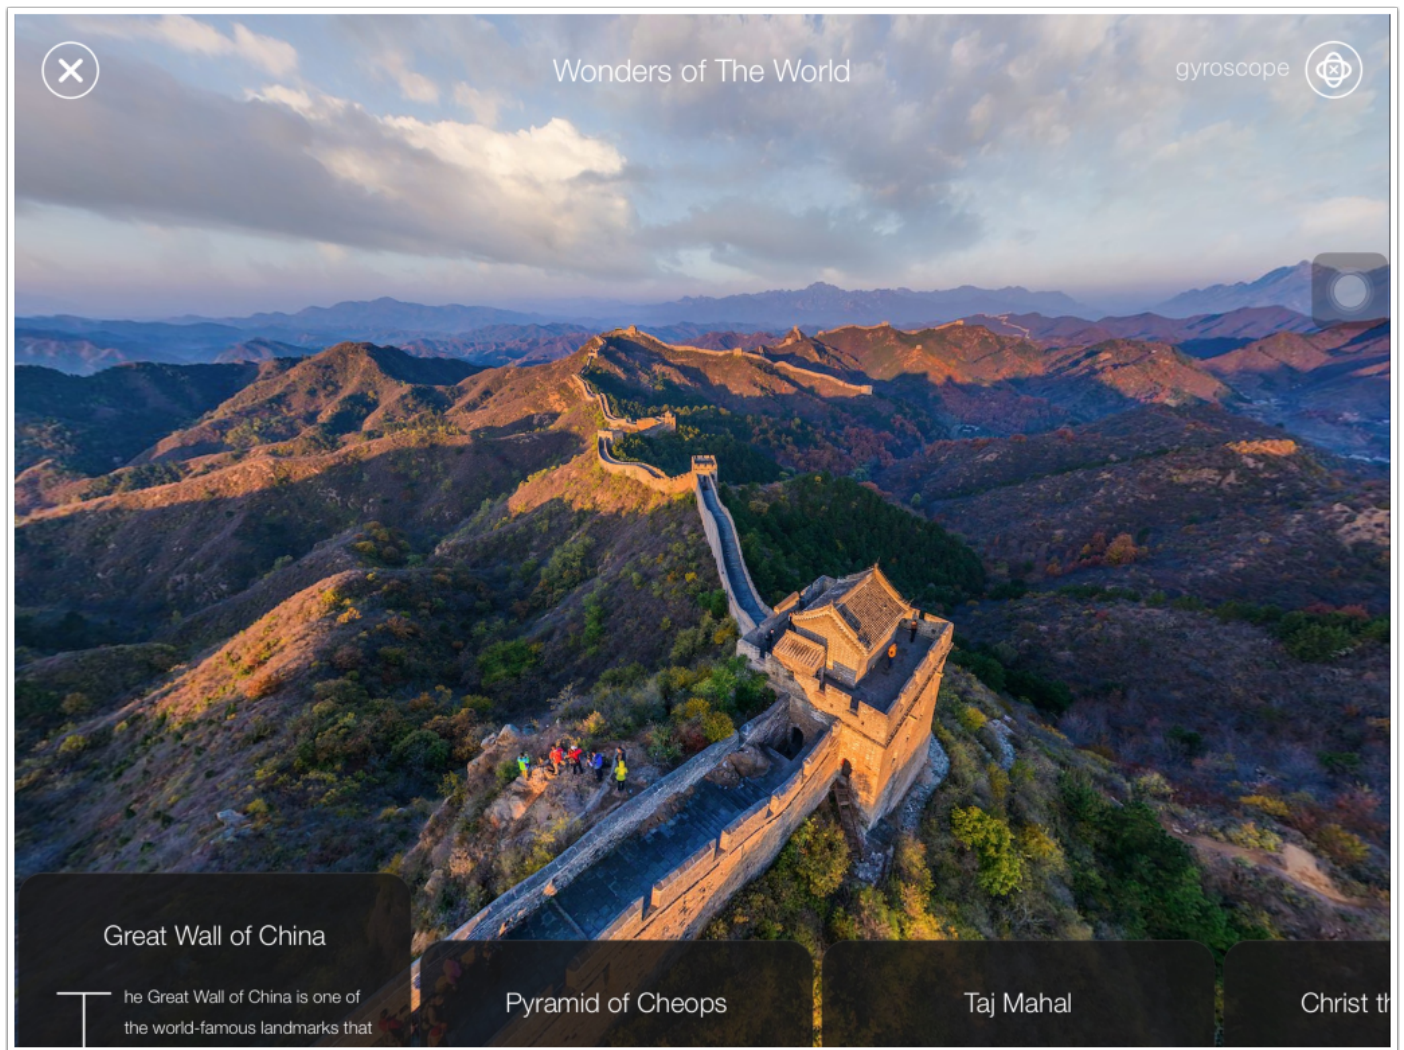

Section	Value
Name	David Whitby
Date of Birth	January 3, 1948 (68)
Medical Conditions	Minor Arthritis
Medications	Diclofenac
spouse	Kathe Zamorano (626) 807-4363
Weight	200 lb
Height	6 ft, 4 in
