In our new series [Getting It](#), we'll give you all you need to know to get started with and excel at a wide range of technology, both on and offline. Here, we're walking you through all the different ways your information is tracked online, and how to protect your data from prying eyes.

It used to be that tracking a person involved a deep knowledge of nature, a keen eye and maybe a dog or two. Nowadays it doesn't involve more than a bit of code and a few mouse clicks.
