ALL THINGS APPLE

Thursdays, February 8 through March 8 from 4:00 to 5:30 p.m.

Cost for the Five-Week Session: \$49

Instructor: David Whitby

Have an “Apple” device and are not quite sure how to use it efficiently? This is the course for you! Anyone at a beginning or intermediate level will be enlightened to all the things you can do with your iPod, iPhone, iPad and the Apple Watch! Over five weeks, we will be covering what iOS devices are and which one will be best for you, what are the most popular uses for your device, how to navigate the interface like a pro, how to take care of your device so it gives you great service for your money, and what apps will make the most impact on your life with this device. Weekly handouts and PDFs with live links will be provided. We will answer any specific questions you may have on using your device.

Non Apple but interesting Tech
